Facility Name: Clark's Corner Coffee Tru	Address: 12 W Main St	City: Ione	Zip Code: 95640
Permit #: PT0000977	Exp Date: 12/31/2012	Permit Holder: Kraig Clark/Andrea Bonham	Type of Inspection: Routine/Annual Inspection

## OBSERVATIONS AND CORRECTIVE ACTIONS

01

The employee operating the Clark's Corner Coffee Truck, Ms. Tyler J. Silva, has a current safe food handling certification. Her certification is valid until 12/14/2015.

06

A. During the inspection of the vehicle water was not available at the hand washing sink or at the three compartment sink. Hot and cold water must be provided at both sinks when operating the coffee truck. Repair or replace the pump if necessary to provide hot and cold water to both sinks.

B. Always provide paper towels and soap at the hand washing sink. Both the paper towel dispenser and the soap dispenser were empty. Check and fill both dispensers daily and direct employees to regularly use the hand washing facilities.

07

During the inspection several potentially hazardous food items were not at the proper temperatures. Meat loaf and burritos were found to be below the required 135 degree Fahrenheit temperature. Ms. Silva was directed to immediately place the burritos in the refrigerator and cool the food items to 41 degrees Fahrenheit or below. Once the burritos are cooked they must either be held at 135 degrees Fahrenheit or above or be refrigerated and held at 41 deg4rees Fahrenheit or below when being transported and held for sale.

The Cambro boxes are only approved for transportation of the food items and cannot maintain the required food item temperatures necessary throughout the day.

Do not use the Cambro boxes to hold potentially hazardous food items throughout the day. Commercially rated and American National Standards Institute or National Sanitation Foundation approved equipment is required in the vehicle. Remove the residential unapproved hot holding equipment in the vehicle.

11

Once appropriate commercially rated ANSI or NSF approved equipment is approved by this office and properly installed in the vehicle, hot holding food items can be permitted in the unit. Direct staff to always reheat refrigerated or frozen food items to 165 degrees in the commissary prior to placing the food items in approved hot holding equipment in the vehicle. Potentially hazardous foods held at or above 135°F on a mobile food facility or mobile support unit shall be destroyed at the end of the operating day

All potentially hazardous cooked food items must be cooked in the commissary to the appropriate and required temperatures and then placed in the approved hot holding units in the vehicle.

Sandwiches prepared that day in the commissary or burritos prepared that day in the commissary can be placed in the refrigeration unit in the vehicle and held at or below 41 degrees throughout the day. Reheating the sandwiches in a microwave is permitted. Reheating burritos prepared in the commissary that day is permitted. We would recommend determining what setting is necessary to reheat a refrigerated burrito to at least 165 degree Fahrenheit by taking the temperature of the burrito after reheating.

34

Post the dish washing sticker on the wall above the three compartment sink and purchase test strips for vehicle employee use. Direct employees operating the vehicle that they must follow the posted sticker instructions and always wash utensil, containers, and cutting boards first in soap and water then they must rinse the utensil off in fresh water in the 2nd compartment of the sink and in the final step they must sanitize the utensil in the appropriate chlorine or quaternary ammonium sanitizing solution. All employees must check the level of sanitizer in the 3rd compartment of the sink prior to washing dirty utensils and containers.

39

Vehicle and commissary employees must have an accurate thermometer to take regular temperature readings of cooked or reheated food.

41

Provide this office with the current size of the potable and waste water holding tanks on the vehicle.

44

Employee entrance doors to food preparation areas shall be self-closing and kept closed when not in use. Vehicle doors and windows must be kept closed when operating and the service windows must be screened.

---

47

---

Post the current 2012 annual permit and the customer notice left with Ms. Silva during the routine inspection on a service window in plain view of customers approaching the vehicle.

2012 permit fees are currently due.
