OBSERVATIONS AND CORRECTIVE ACTIONS

01

The owner, Mrs. Thomi Manzano is currently safe food handling certified. Her certification is valid until 01/16/2016.

The cooks and the wait staff do not have their required safe food handler cards. All food preparation and food service employees must have an accredited and current safe food handler card. The owner must have a list of current employees (food preparation and service employees) and a copy of their current food handler card on file at the facility available for review by this department.

06

Mount a paper towel dispenser and soap dispenser on the wall or on the counter at the front hand washing sink and keep paper towels and soap in all hand washing sink towel and soap dispensers.

07

The smaller reach in refrigerator in the corner in the grill area is holding food items at approximately 44 degrees Fahrenheit. Adjust, repair or replace the unit. All food item temperatures must be held at or below 41 degrees Fahrenheit at all times. This same unit had to be repaired and was not functioning properly during the previous food facility inspection on 12/01/2010.

Replace the double door handles on the reach-in refrigerator on the left in the grill area. This violation was noted previously during a routine inspection on 12/01/2010.

14

Keep the ice scoop in a clean container on or attached to the ice machine or in a clean container in the ice machine to keep the scoop clean and to keep employees from touching the ice with their hands. The ice scoop container must be cleaned regularly.

23

During a previous routine inspection of the facility on 12/01/2010, rat infestation in the facility was evident and noted. Rat feces was again observed on the floor in the kitchen around the convection ovens and in a cabinet under the front hand washing sink. The owner installed sheet metal around the bottom of the facilities walls covering up several holes in the walls. It is evident that the facility is still infested with rodents. The owner must clean up the rodent feces under and around the ovens and in all of the facility cabinets. The owner must immediately contact and contract with licensed pest control service for service to eliminate the rodent infestation. The owner must use a licensed pest control service at least weekly until the rodent infestation in the facility is eliminated.

33

The owner or employees must clean out and clean off the coffee, dirt and stains on the counter below the espresso counter and clean off the old food and dirt on the kitchen cabinets and reach-in coffee refrigeration unit. The cabinet inside and outside have not been cleaned in weeks.

39

Keep a thermometer in the reach in refrigeration unit in the corner on the left in the grill area. An accurate thermometer in the unit in plain view is required.

40

The owner and employees must keep a container of 100 part per million chlorine solution in the grill area and in the coffee preparation areas on a daily basis. Keep several cloth towels in both containers daily and have staff use the chlorinated cloth towels to clean and disinfect food preparation counters, cutting boards, and equipment in and around the kitchen and grill area on a regular basis throughout the day.

45

The floor in the dish washing area, in the grill area and in the coffee area has not been cleaned thoroughly is several days. Old food and rat feces has been allowed to accumulate around and under equipment. Sweep and mop the floors daily. A new floor finish (sheet vinyl or tile is required) on or before August 1, 2012.

47

Post the annual retail food facility permit and the customer notice on a wall in plain view of customers.

SUMMARY OF THE CORRESPONDING LAWS AND REGULATIONS FOR THE VIOLATIONS LISTED ON THE FRONT SIDE OF THIS FORM. THIS SUMMARY PAGE LISTS THE GENERAL REQUIREMENTS FOR EACH ITEM. THE DEPARTMENT

1. All food employees shall have adequate knowledge of and be trained in food safety as it relates to their assigned duties.
