LANDLORD NOTIFICATION, REPAIRS REQUESTED AT:

Address	Unit#	City
---------	-------	------

California Civil Code, Section 1941, provides that the landlord of a building intended for human occupancy is responsible for repairing conditions that substantially affect the habitability of the rental unit. I believe that the referenced dwelling unit needs the repairs listed below and that these repairs are the landlord's responsibility. The law usually considers 30 days to be a reasonable time for the completion of repairs of this type. A copy of this request is being forwarded to the Amador County Environmental Health Department.
