

**STATEMENT OF CANDIDATE FOR
COUNTY SUPERVISOR DISTRICT 3**

Jeff Brown Age: 55

My life has been dedicated to public service. I currently work for the USDA Forest Service, am President of the First Mace Meadow Water Association Board, Chairperson of the Upcountry Community Council, and after 24 years of distinction, a retired/disabled Air Force Veteran.

Many of my District 3 neighbors and business owners have encouraged me to run because of my reputation and abilities to manage a corporate budget, be an upstanding citizen, a role model for our youth, and an even-tempered, patient teacher.

I have a solid knowledge and appreciation of our precious Water Resources, Water Management and public water systems, plus the needs of wildland firefighting both on ground and air. I am active in the American Legion 108 and being a disabled Veteran myself, I personally understand the needs of Veterans firsthand.

My family settled here in 1984, giving me a fiercely loyal bond to this community. I truly care about District 3 and the lifestyles we embody and desire to keep.

I take this position seriously and will put 100% into it as a full-time job, being prepared, educated, and dedicating myself to being your voice in the County. Please vote for me, Jeff Brown.

**STATEMENT OF CANDIDATE FOR
COUNTY SUPERVISOR DISTRICT 3**

Lynn A. Morgan

Occupation: District 3 Supervisor

I moved to Pioneer in 2007 with my husband Pat after retiring as a senior state program manager. I've worked hard for District 3 since I was elected supervisor in 2014. In helping many of you, I've learned what works well at the county and where we need to improve.

I've worked to bring county government to you. I send out regular updates and hold upcountry office hours and town hall meetings so you can stay informed and get help without driving to Jackson. You can now watch the supervisors' meetings online and get veterans' services upcountry. I sponsored a project to help low-income seniors remove hazard trees and supported grants to improve firefighting water supplies and reduce wildland fire risk.

I've shown that I know how to get things done. But there's much more we can accomplish together. We need to go after the money needed to fix our upcountry roads, involve citizens in finding solutions to our local challenges, and put the talents of local residents to work for our communities and our county.

I respectfully ask for your vote on Tuesday, June 5.
