

**STATEMENT OF CANDIDATE FOR
COUNTY SUPERVISOR DISTRICT 5**

Andrea Macon, Age: 49
Occupation: Information Technology Professional

Amador County is blessed with resourceful people, incredible scenic beauty, and rich history. We have a long tradition of working together. Amador residents help keep our fair open. Shake Ridge families started the Lockwood fire department. Locals restored the Willow Springs School and Fiddletown's Chinese buildings. Folks in Plymouth built a new park and reopened their library. That can-do spirit makes our county great. Together, we can tackle our local challenges while planning for a more-prosperous tomorrow. We can improve our roads, create more good-paying jobs, address homelessness and healthcare, and protect our rural quality of life. I grew up on a small, Oregon cattle ranch. I have broad experience as a small-business owner, technology professional, fire district director, writer, and mom. I am a creative problem solver who likes to work with people and learn from them. I want to work with you for District 5 and Amador County. I will seek out your ideas, hold meetings in the district, and ensure our county government is accountable and efficient. I humbly ask for your vote on Tuesday, June 5. Together, we can respect Amador County's history while working to build a better future.

**STATEMENT OF CANDIDATE FOR
COUNTY SUPERVISOR DISTRICT 5**

Brian Oneto
Occupation: Amador County Supervisor / Rancher

As a 4th generation lifelong Amador County rancher and small businessman, I believe in common sense government. If re-elected, I'll keep protecting our County's values and rural quality of life, including:
FISCAL CONSERVATIVE- Continuing to reduce bureaucracy and keep County budgets balanced. JOBS - Remaining committed to expanding jobs in our local economy by reducing government fees and regulations and promoting reasonable growth. GROWTH- Continuing to support reasonable growth that fits our rural character while ensuring those that benefit from development pay their fair share. ROADS - Continue seeking and securing Federal and State funding and stretching existing dollars to improve our failing roads - an issue throughout the County. MARIJUANA - Recognizing the medicinal value of marijuana, while continuing to oppose commercial grows. COMMUNITY- Continuing to support seniors, veterans and families. WATER - Continuing to oppose any efforts to compromise our water resources. WILDFIRE - Continuing to support full-time fire fighters and fire districts. Stopping wildfires must remain a high priority. CORE BELIEFS - the United States Constitution, including the 2nd Amendment, private property and water rights, believing in family values. Married to Janine since 1996; family attends church in Pine Grove.
Respectfully, I ask for your vote.
Thank you,
Brian Oneto
