Sierra Nevada Conservancy

Re: Tiger Creek Fuel Break and Watershed Protection Project #1200

To Whom It May Concern:

The Amador County Board of Supervisors is pleased to provide this letter of support to the Amador County Fire Safe Council (AFSC) in its application to the Sierra Nevada Conservancy Category I Implementation Grant applications for the Tiger Creek Fuel Break and Watershed Protection Project.

We are in full support of AFSC's fire prevention efforts; we recognize the AFSC is working to increase the resiliency of the wildlands and reduce hazardous fuel loading throughout the County with watersheds that provide domestic water within Amador County as well as to nearly 1.5 million people in the East Bay around Oakland, CA.

The Amador County Board of Supervisors approved the High Country Community Wildfire Protection Plan which specifies project priorities in the Eastern end of Amador County and these projects are in line with the goals and objectives of the High Country CWPP.

We present this letter in Support of the AFSC application for improving the safety of both residents and firefighting personnel. The Amador County Board of Supervisors looks forward to our continued partnership with the Amador Fire Safe Council and to a more fire-resilient landscape in our future.

Sincerely,

Brian Oneto, Chairman
