Dark Sky Outdoor Lighting Ordinance

I would like to voice my support for the proposal under consideration to enact an Outdoor Lighting Ordinance to protect dark skies. A dark sky is everyone's right and heritage. Just as I would not degrade Yosemite or the Grand Canyon with development, I would not degrade our ability to view an unadulterated dark sky. It is not reasonable to allow a short term profit driven view to permanently change our night time environment. Acceptable dark sky approved lighting and fixtures will not cause job loss, nor will they impact development and the economy. Please make the right decision and protect our dark skies. Our children will thank you.
