Planning Commission,

I am writing this email in support of the Blood Gulch Tasting Room project. I am a Plymouth based C-7 contractor and have been working on various projects for the Merryman family for approximately 7 years now. They are very straight forward, extremely fair, detail oriented, and down to earth guys who appreciate the value of good craftsmanship. They always have innovative projects underway with the aim of improving the quality of the community life in Amador County. Working with Rich and Jim, has created a lot of opportunity for my business, as well as many other local businesses! I feel comfortable trusting the Merryman brothers on their various endeavors on a handshake alone, and that is rare! The projects my company has been involved with for the Merryman's have been top quality, well planned and executed, yet conscientious of the local surroundings where they are constructed. It is my pleasure to offer my opinion and support for the Blood Gulch project, as I know it will bring a lot of value to the local economy for tourists and locals alike!

Thanks!!
