- (a) It is unlawful to litter or dump, or cause to be littered or dumped, waste matter in or upon a public or private highway or road, including any portion of the right-of-way thereof, or in or upon private property into or upon which the public is admitted by easement or license, or upon private property without the consent of the owner, or in or upon a public park or other public property other than property designated or set aside for that purpose by the governing board or body having charge of that property.
- (b) It is unlawful to litter, place, deposit, or dump, or cause to be littered, placed, deposited, or dumped, rocks, concrete, asphalt, or dirt in or upon a private highway or road, including any portion of the right-of-way of the private highway or road, or private property, without the consent of the owner or a contractor under contract with the owner for the materials, or in or upon a public park or other public property, without the consent of the state or local agency having jurisdiction over the highway, road, or property.
- (c) Each day that waste placed, littered, deposited, or dumped in violation of subdivision (a) or (b) remains is a separate violation.
- (d) This section does not restrict a private owner in the use of his or her own private property, unless the placing, depositing, or dumping of the waste matter on the property creates a public health and safety hazard, a public nuisance, or a fire hazard, as determined by a local health department, local fire department or district providing fire protection services, or the Department of Forestry and Fire Protection, in which case this section applies.
- (e) To the extent permitted by law, an owner or operator of a motor vehicle or trailer is liable and responsible for illegal dumping and for all costs, penalties and fines relating to the illegal dumping when the owner's vehicle is used with the express or implied permission of the owner or operator, irrespective of whether the owner or operator knew or should have known of the intended use of the vehicle.
