- G. Adjourn

MINUTES

TRI-COUNTY TECHNICAL ADVISORY COMMITTEE

Friday, August 13, 2021

10:00 A.M.

VIRTUAL MEETING

Meeting link: <https://zoom.us/j/94171617000>

Meeting ID: 941 7161 7000

Call in phone number: +1 669 900 9128

A. Call to Order:

The meeting was called to order by Brendan Ferry at 10:04 am. Members present were: El Dorado County, Brendan Ferry; Alpine County, Candace Stowell; Amador County, Chuck Beatty.

B. Approval of Agenda:

On a motion by Chuck Beatty and second by Candace Stowell the agenda was approved as published.

Roll call vote: Brendan Ferry: Aye; Candace Stowell: Aye; Chuck Beatty: Aye.

C. Correspondence: None.

D. Minutes: July 09, 2021

On a motion by Chuck Beatty and a second by Candace Stowell, the minutes from July 09, 2021 were approved.

Roll call vote: Brendan Ferry: Aye; Chuck Beatty: Aye; Candace Stowell: Aye.

E. Public Matters not on the Agenda: None.

F. Agenda Items:

ITEM 1: Review and possible approval of a hazard tree removal permit; 50817 Merrill Road, Kirkwood, CA; APN 026-141-003; Applicant: Baxter.

Brendan Ferry introduced the item, and after the discussion, Tri-TAC members agreed that the project was approvable as presented.

On a motion by Chuck Beatty and a second by Brendan Ferry, the Committee recommended approval of the project.

Roll call vote: Brendan Ferry: Aye; Candace Stowell: Aye; Chuck Beatty: Aye.

ITEM 2: Review and possible approval of a hazard tree removal permit; Lot 5, Unit 2 East Meadows Subdivision, Kirkwood, CA; APN 006-143-005; Applicant: Patterson.

Brendan Ferry introduced the item. Steve Cannon, registered professional forester, spoke on the item. The parcel has a conservation easement and the project is aimed at

forest health and fire safety. 60 trees are to be removed, but only 19 were marked due to many of the trees being very small.

After the discussion, Tri-TAC members agreed that the project was approvable as presented.

On a motion by Candace Stowell and a second by Chuck Beatty, the Committee recommended approval of the project.

Roll call vote: Brendan Ferry: Aye; Candace Stowell: Aye; Chuck Beatty: Aye.

ITEM 3: Review and possible approval of Kirkwood Specific Plan Mitigation Monitoring Reports 4.1 (ae) COA 32 Avalanche Forecasting Report and Snow Safety Program, 4.03.1 (h) COA's 56 and 75 Fishing Regulations Posters, 4.05 (j) COA 93 Cultural History of California, 4.07 (d) Parking Analysis, 4.09 (b) Snowmaking Noise Management Program, 4.10 (a) Employee Housing Report, 4.12 (c) COA's 140 and 169 Sensitive Resource Poster; Kirkwood Mountain Resort, Kirkwood, CA; Applicant: Kirkwood Mountain Resort.

Brendan Ferry introduced the item and the committee reviewed each mitigation monitoring report with Greg Kiskinen, Kirkwood Mountain Resort Director of Base Operations.

Tri-TAC members asked questions about the parking analysis, the reservation system, and if the newly proposed employee housing units would be in South Lake Tahoe. One report is still outstanding – the street sweeping report, which will be delivered after the second round of street sweeping is complete. Next year, the Level of Service Analysis report will be completed.

After the discussion, Tri-TAC members agreed that the project was approvable as presented.

On a motion by Chuck Beatty and a second by Brendan Ferry, the Committee recommended approval of the project.

Roll call vote: Brendan Ferry: Aye; Candace Stowell: Aye; Chuck Beatty: Aye.

G. Adjournment: The meeting was adjourned at 10:41. The next regularly scheduled meeting is September 10, 2021, at 10:00 am.

5 August 2021

Dear Mr. Peters,

On the 2nd of August I visited the residence of Mr. Michael Browner at 279 Larkspur Lane in Kirkwood, CA.

The purpose of my visit was to assess the status of the trees on his property and to determine if any of the trees constituted a hazard to his house or to human safety.

What I found was that there are 4 trees that I would recommend removing and a description of them is as follows:

Tree #1 – An 44" diameter Red fir. It is heavily infested with the parasite Dwarf Mistletoe, has three dead tops and is likely suffering from Annosus root rot. If this tree were to fall to the south, it is large enough to cause significant damage to the house.

Tree #2 – A 18" diameter Red fir. This tree is dead.

Tree #3 – A 16" diameter Red fir. This tree is dead.

Tree #4 – An 8" diameter Red fir. This tree is dead

I marked the trees with their respective numbers in yellow paint. Tree #1 is on the north side of the Browner house and Tree #s 2, 3, & 4 are on the east side of the house, in the back yard.

If you have any questions, please feel free to call me.

Sincerely,

Steve Q. Cannon
RPF #2316

5 August 2021

Dear Mr. Peters,

On the 2nd of August I visited the residence of Dr. Robert Goldberg at 347 Larkspur Lane in Kirkwood, CA.

The purpose of my visit was to assess the status of the trees on his property and to determine if any of the trees constituted a hazard to his house or to human safety.

What I found was that there are three trees that I would recommend removing and a description of them is as follows:

Tree #1 – A 14" diameter Red fir. This tree is located near the northeast corner of the house and the tree is dead.

Tree #2 – A 40" diameter Red fir. This tree is within 70 feet of the house on the south side and presents a danger to the house. It has a dead top and infested with Dwarfmistletoe. The needles are fading, indicating the progression of the Annosus root rot. A Red fir in this situation is also prone to attack by the Fir Engraver beetle.

Tree #3 – A 12" diameter Red fir. This tree is near the northeast corner of the house and is dead, with rot showing at the base of the tree.

I marked the trees with their respective numbers in yellow paint.

If you have any questions, please feel free to call me.

Sincerely,

Steve Q. Cannon
