COUNTY ADMINISTRATION CENTER • 810 COURT STREET • JACKSON, CA 95642-2132

TO: Owners of Property Abutting County Roads

Dear Property Owner:

Amador County has a program carried out by the Department of Transportation and Public Works to reduce fire danger in the County by applying herbicide to vegetation on County right of ways adjacent to the pavement.

If you choose not to have the Department spray within the County right of way on your property, please notify the Department of Transportation & Public Works of that request. This can be done by emailing PublicWorks@AmadorGov.Org or by signing the attached **no herbicide spray form** and mailing the request to the above address.

You must identify the portion of the County road which you request that the Department not spray. **You must also place a visible and legible "no spray" sign at both ends of the right of way at least one foot high and positioned perpendicular to the road on your property that you do not want the county to spray.** You must maintain the right of way in a condition clean of vegetation so as to prevent fires from igniting in roadside vegetation.

If you fail to meet these conditions the Department will spray the vegetation the following year whether or not you have a no spray form on file.

Thank you for your cooperation in this matter.

Sincerely,

A handwritten signature in blue ink that reads "Richard Vela".

Richard Vela, Director

Department of Transportation & Public Works
