

CALIFORNIA DEPARTMENT OF

Alcoholic Beverage Control

License Types by Number

01 - Beer Manufacturer

02 - Winegrower

(Winery) The following pertains to new winegrowers' licenses issued after September 17, 1965. A winegrower must have facilities and equipment for the conversion of fruit into wine and engage in the production of wine (Section 23013). Federal Alcohol and Tobacco Tax and Trade Bureau (TTB) regulations permit a winegrower to use the facilities and equipment of another winegrower to produce wine. This is commonly referred to as an "alternating proprietorship." Separate winegrower licenses are issued to each legal entity manufacturing wine under its own bonded winery permit. Wine must be made from the fermentation of agricultural products to which may be added brandy that is distilled from the same agricultural product from which the wine is made. Thus, neutral grain or other distilled spirits cannot be used to fortify wine – only brandy of a specific type. No more than 15% added flavoring or blending material may be added. (Section 23007).

03 - Brandy Manufacturer

04 - Distilled Spirits Manufacturer

05 - Distilled Spirits Manufacturer's Agent
