I hope that the approval of the new cell tower in Pioneer won't look as gaudy or invasive as the newest one in Martell! I am very disappointed in the approval of that tower where it is without it being "disguised" in some way to fit into the surroundings of the area. It was just blatantly plopped right where it is and be seen in every direction for a long way!

I'm sorry that I didn't catch that cell tower before it was approved, but again, I'm disappointed that it was even approved by anyone that is in the County!

It sounds like they are at least going to try to blend in this new tower in a little more with the fake-looking tree type.
