Commissioner Wardall asked if Mr. Lienert if he had seen the low flying air tankers on the news trying to save the high school at the Georgetown Fire and said that cell towers have to be enough of a visual point that pilots can see them. He asked how far from the tree canopy line the tower will be.

Mr. Lienert responded 15 feet, and added that he attended the TAC meeting via Zoom and that they accepted his recommendation from that meeting to paint the tower white and remove the metal branches in the event the surrounding trees are destroyed by fire.

Applicant: ACES Waste Services, Inc.
Supervisorial District: 4
Location: 19801 Berry St , Pine Grove, CA 95665

Chair Gonsalves opened the hearing.

Ms. Ruesel introduced the item and shared the Staff Report which is hereby incorporated by reference into these minutes as though set forth in full and added that staff recommends to amend the #1 finding to include that the approval of the use permit is contingent upon the approval of the zone change.

Chair Gonsalves asked if the project proponent is present.

Neil Etker, ACES Waste Services, shared that they are excited to serve public demand.

Commissioner Munnerlyn asked for clarification of how many days per week or month the station is reaching capacity before regular business hours have to close.

Joe Acereto, ACES Waste Services, responded that it varies day to day and week to week and that the County has allowed them to use an average tonnage. He elaborated that some days they may be at 150 tons and others 50 tons and that the County has all of that information.

Commissioner Curtis asked if there is a plan with the increase in traffic for better access from Hwy 88 to the ACES gate.

Mr. Acereto replied that if this gets approved, they will mitigate that problem. He added that the State is going to widen Highway 88 and that they are just waiting to get to that point.

Commissioner Curtis asked about the house located at the Berry Street intersection with Highway 88.

Mr. Acereto stated that ACES owns it and they plan on demolishing the house because they cannot get fire insurance on it due to the condition of the roof and it's not worth replacing the roof.

Commissioner Curtis asked if they might widen Berry Street there.

Mr. Acereto responded that they might, and that he is not sure if they will build another house there. Getting approval of the use permit is step one of everything else.

Commissioner Curtis said that it is not noted in the plan.

Paul Molinelli, ACES Waste Services, shared that they bought the corner property specifically in the event

Berry Street has to be widened and that they understand that it is tight to negotiate and that the highway is busy.

MOTION: It was moved by Commissioner Munnerlyn, seconded by Commissioner Curtis, and unanimously carried to close the public hearing.

Chair Gonsalves asked for discussion from the Commission.

Commissioner Wardall commented that ACES is a very professional corporation that is well managed with well-maintained trucks. He added that they are very active in the community and if there is road widening to do that he is sure they will do it. He said that it is needed to keep the county clean.

Commissioner Bennett shared that preventing further traffic to Buena Vista is good and that ingress and egress could be a problem, but that it is a problem throughout Pine Grove. He stated that he is pleased that ACES bought the house at the intersection so that some of those egress problems can be solved. He read in the packet that there is going to be improvement on Berry Street, but that he believes it should not be up to ACES. He recommended to take the trees along Berry Street out so that there is a real shoulder. He added that he does not recommend making it a condition though.

Deputy County Counsel Spitzer said that a good condition would be that the amended use permit is conditioned upon Board approval of the zone change, so that the condition would not apply if the zone change is not approved and the applicant does not have undue burden.

Chair Gonsalves said that it sounds reasonable.

MOTION: It was moved by Commissioner Munnerlyn, seconded by Commissioner Wardall, and unanimously carried to approve the Negative Declaration as the appropriate environmental document.

MOTION: It was moved by Commissioner Bennett, seconded by Commissioner Munnerlyn, and unanimously carried to approve UP-22;3-3 adopting all the findings and conditions in the staff report, and recommend approval to the Board of Supervisors for ZC-22;3-1 with the use permit contingent upon the approval of the zone change by the Board.

Ms. Ruesel stated that the Planning Commission has approved UP-22;6-1 and recommended approval for ZC-22;3-1. Anyone wishing to appeal this decision may do so by filing a written appeal with the Clerk of the Board no later than 5:00 p.m. on September 23, 2022.

MOTION: It was moved by Commissioner Munnerlyn, seconded by Commissioner Bennett, and unanimously carried to adjourn the meeting.
