To the planning commission,

I am a resident of Amador County and I support the Airport ordinance being sought out by the residents of Eagles Nest Airport. As a pilot I have seen small airports like Phoenix field, Natomas field and Sunset sky ranch pushed out by urban sprawl. There is a great benefit to having these small neighborhood airports around to give smaller aircraft a place to come and go without being a hindrance to large commercial operations. I am also an aircraft owner but far from a rich one with an airplane worth less than your average sedan.

Thank You for your time,

Ricky M. Grimshaw
