MAJOR CONCERN for Changes to lone

Have just learned that the Amador County Planning Department has received a Use Permit application for a 20,000 sq. ft. mosque and 50,000 burial plots at the corner of Carbondale and Lambert Roads. The current zoning is MRZ, mineral resource zone (mining) and AG-40 (agriculture).

Many problems:

- no water

- poor secondary county roads cannot handle the vast increased in traffic

- inappropriate land use conversion, impacts Eagle's Nest Airport.

The current Eagle's Nest Airport land use Ordinance that restricts schools, churches and the commercial assembly of persons within 1 mile of the airport.

I hope that our County Planning Department will deny this Use Permit as it will have a major negative impact to the town of lone where I am a resident.

Regards,
Stephanie Anderson
