

**PUBLIC EDUCATION
AND
OUTREACH PLAN
2024**

INTRODUCTION

The mission of ACES Waste Service's public education and outreach program is to aide Amador County residents in understanding solid waste and recycling. We aim to provide updated information regarding state legislations and what that means for curbside services and our own operations. Last year, we continued our social media efforts, distributed service guides to new residential and commercial customers, developed a commercial version of our service guides, and attended school events such as career days and scholarship awards nights. Although we have a rural exemption under SB1383 from curbside collection of organic materials, we still aim to provide information and education regarding recycling and other sustainable options to Amador County residents and commercial business owners.

The focus of our public education and outreach program over the next calendar year is to continue educating the community utilizing our social media platforms, updating education materials and distributing them to the public. In addition, we are committed to develop curriculums aimed towards recycling and reach out to schools for interest in our program. We are also hopeful to attend community events around the county and hold in person educational meetings with businesses and schools to implement or improve their own recycling programs.

The following is a summary of current and proposed items, tools, activities, and dates that will be utilized to educate and reach out to the community this coming calendar year. Each section details specific goals and modes of action for residents, commercial locations, and schools.

CURRENT PROGRAMS

RESIDENTIAL AND COMMERCIAL PROGRAMS: Recycle carts are provided to residential customers, in rural areas orange bags are distributed and collected weekly. Commercial customers have the option to choose cart or bin service for recycling. For outreach, ACES currently utilizes newsletters, service guides and the website (aceswaste.com). The ACES Waste Facebook and Instagram pages are also utilized for sharing new information, changes of service, such as holidays or weather alerts & education.

SCHOOL PROGRAMS: Amador and Argonaut High Schools currently have recycle containers. Ione Junior High has recycle containers in classrooms.

MATTRESS RECYCLING: ACES Waste Services, the Amador County Waste Management and Recycling Department and the California Mattress Recycling Council have partnered to offer a free mattress recycle program. Mattresses are accepted free of charge from residents of Amador County only.

OIL RECYCLING: ACES and Amador County provide two locations for the collection of used motor oil. Oil is collected at both transfer stations during regular business hours.

ELECTRONIC WASTE RECYCLING: ACES accepts and separates e-waste at both Transfer Stations to ensure these items are diverted from the landfill.

CONSTRUCTION & DEMOLITION RECYCLING: As part of Cal Green's county ordinance No 1703, ACES is certified to divert 65% of C&D materials from landfills.

CARPET RECYCLING: In partnership with the California Carpet Stewardship Program, ACES helps to divert the 300 million pounds of carpet from landfills each year.

TRANSFER STATIONS

Western Amador Recycle Facility (WARF) & Pine Grove Transfer Station

At each transfer station, gate operators inspect the general content of each load entering the facility. Certain waste loads that exclusively contain such items as “orange bags” (source separated recyclables), wood debris and green waste, cardboard, tires, inert building materials, white goods (certified by outside contractors to be clean and empty of Freon and oils) or other materials will be salvaged from the tipping floor and directed to storage locations within the WARF designated areas. In most cases, however, loads of mixed waste are directed to the WARF tipping floor. At both the WARF and Pine Grove transfer stations, ACES employees hand sort materials such as metal and cardboard that can be recycled. They are also responsible for sorting out mattresses, carpet and e-waste and set them up for transportation to the appropriate recycling centers.

GOAL: Promote sorting before bringing items to the transfer stations and educate about existing recycle programs.

MOVING FORWARD:

ACES will continue education at the transfer station(s) by

- Sharing collection and disposing data and educating the community about what can or cannot be recycled.

RESIDENTIAL

GOAL: Continue education on what can be recycled and waste reduction practices.

MOVING FORWARD:

Residents are an essential part of waste reduction, therefore, ACES plans to

- demonstrate how easy recycling and organic recycling can be incorporated into resident’s homes to encourage participation
- update existing service guides with new and relevant information.
- provide educational materials for ongoing Amador County events such as the Amador Farmer’s Markets, Dandelion days, the Amador County Fair, and other small events.
- continue Social Media efforts by posting educational information in addition to service updates to Facebook and Instagram and promote the Waste Wizard, Collection schedule tool and our ACES app.

COMMERCIAL

GOAL: Continue to promote recycling and sustainability options.

MOVING FORWARD:

Commercial locations can also play a role in diverting items from landfills, ACES will educate commercial customers by

- distributing service guides to educate about the importance of recycling and organic recycling and encourage interested customers to incorporate their own programs

- promoting and showcasing businesses who start recycling programs on social media platforms and commercial newsletters
- reaching out to business groups and interested businesses around the county.

SCHOOLS

GOAL: Make recycling and educational materials for schools more available for staff and students at all grade levels.

MOVING FORWARD:

When working with schools, ACES will

- develop a basic curriculum for all grades and reach out to interested schools
- provide education and encourage resources to be used through teacher workshops and outreach
- utilize Earth Week for education presentations and “truck showings” for elementary and preschool levels to promote sorting in both school and home settings
- create a Recycle Campaign for High School and Middle School level students to create their own programs at school giving them leadership opportunities

OUTREACH CALENDAR OF EVENTS

Each year education outreach efforts will focus around specific dates and events. We aim to center education and spread awareness relating to these events and waste holidays. Dates and events consist of:

- EARTH WEEK
- AMERICA RECYCLES DAY
- GARBAGE MAN DAY
- AMADOR COUNTY FAIR
- DANDELION DAYS

FUTURE EDUCATION AND OUTREACH

A one-size-fits-all approach to waste reduction and diversion is not possible. The most significant opportunity to make a measurable impact on climate change exists within our own operations. As our Public Education and Outreach program grows, we will continue to anticipate future changes to legislations and will adapt our plan to what works best for Amador county business owners and residents. We strive to educate about the importance of waste reduction and look for reuse or repurpose opportunities, giving new life to materials that would have otherwise ended up in the landfill. Existing educational material will be periodically reviewed, updated, and translated to reflect the county’s growing economy and population. New material will also be developed as needed to address the public’s need for information.

SERVICES

Account:

Just Give Us a Call

Quick &
Convenient!

How to Reach Us

For prompt resolution of service problems or questions about your service:

- Visit www.aceswaste.com where you can view your custom collection schedule, or try out our Waste wizard tool.
- Email info@aceswaste.com
- Call (209) 274-ACES, fax (209) 274-4308; or
- Visit our office located at 6500 Buena Vista Rd, Lone, CA

Missed Collection?

Please call (209)274-ACES within 24 hours to report that your garbage or recycling has not been serviced.

If your garbage was missed because of poor weather or road conditions, double your normal amount of garbage will be collected the following week at no additional charge.

Extra Material

If you are expecting more trash or recycling than usual, please call 24 hours prior to your regular collection day to arrange for a pickup of extra garbage. If the lid on your cart does not close, you may be subject to extra charges.

Please call to schedule for collection of extras and for additional information.

If your recycling or yard waste exceeds your cart, larger or additional containers are available for a small fee.

Payment Options

Customers have four convenient ways to pay their garbage bills:

- Set up an secure account at www.aceswaste.com to make online payments.
- Bymail, use the envelope provided with your bill.
- Call (209) 274-ACES to make a card payment by phone. We accept American Express, Visa, MasterCard, or Discover. We do not accept checks over the phone.
- In person at our ACES office located at 6500 Buena Vista Rd, lone, CA.
- There is a \$25.00 fee for all returned checks
- If your carts are pulled for non-payment, there is a \$50.00 cart return fee if and when you wish to resume service.

Bear Carts

96 gallon bear carts are available for a small monthly rent and deposit.

SERVICES

Container Sizes (Rates vary based on service area)

Container dimensions:

Size	Height	Width	Depth	Footprint
32 gal.	38.5"	19.0"	22.0"	2.0 sq. ft.
64 gal.	42.0"	25.5"	27.0"	2.5 sq. ft.
96 gal.	46.5"	26.5"	33.5"	3.0 sq. ft.

Handicap Service

At no additional cost, customers demonstrating a qualifying handicap supported by a physician's letter describing their inability to place the container at the curb, can have carts serviced at their residence.

Qualifying handicap service recipients must also provide evidence that no other occupant of the residential premises is physically able to place carts curbside for collection.

Going on Vacation?

Please schedule vacation holds in advance:

Minimum 2 weeks per hold.

ACES will pick up your carts if your hold is 4 weeks or longer, they will be redelivered upon your return. Rental charges may apply if your carts are not removed during an extended vacation.

Call (209)274-ACES for information or go online to www.aceswaste.com

Service During Holidays

There is **NO** collection on **Christmas Day** and **New Year's Day**, collection will occur the following day. Garbage will be collected on all other holidays.

Holiday Treecycling

Christmas trees can be recycled free of charge at either the Buena Vista or Pine Grove Transfer Stations during regular business hours or Amador County Airport (12370 Airport rd Jackson) from 12/26 - 1/30. Flocked trees will not be accepted.

TOXICS

Household Hazardous Waste

Old/Expired Medication

Remove labels, place in clean zipper bag and take old medications to the local sites below or visit

www.amadorgov.org/departments/waste-management-recycling for more information

- Lone Pharmacy 307 Preston Ave Lone, Ca 209-274-2432
- Lone Police Department 1 E Main St Lone, Ca 209-274-2456
- Jackson Police Department 33 Broadway, #D Jackson, Ca 209-223-1771
- Walgreens 475 CA-49, Sutter Creek, Ca 209-267-5128

Options for TVs, Monitors, Electronics

CRTs (TVs and computer monitors), computers, keyboards, printers, ink and toner cartridges, fax machines, cell phones, DVD players, VCRs, radios and other electronics can be taken to the lone or Pine Grove transfer stations. Phone (209)274-2237 or Visit www.aceswaste.com for a list of what is accepted.

Motor Oil and Oil Filters

Motor oil can be poured into a special receptacle located at both the Buena Vista and Pine Grove Transfer Stations. Oil filters can be placed in gray box next to oil receptacle to drain. ****Motor Oil and Oil Filters can be taken to either Transfer Station Daily.**

Cooking Oil

Pour cooking oil into a clear plastic container like a plastic milk jug. Secure lid with tape. Recycle cooking oil on designated HHW collection days. Never pour cooking oil down your household drain.

FIRE DANGER!

Cell phones and E-Waste with batteries are flammable and must be taken to the Buena Vista or Pine Grove Transfer Stations for safe disposal.

ELECTRONICS

- Computer monitors
- Electronics

- TV sets (any size)

CONSERVE

Do More – Beyond Curbside!

What is Commingled Recycling & How does it work?

ACES uses a single-stream recycling method to collect your recyclables called commingled recycling. We collect all plastic, metals, paper and other recyclables in one container and dump it into one truck load. Residents do not need to separate out different types of recyclables before collection. Instead, they are sorted when they arrive at a material recovery facility or MRF for short.

Pros & Cons

The major benefit of commingled recycling is the simplicity for consumers to participate in a curbside recycle program. However, it is easy to contaminate the entire load if dirty items are placed in recycle bins and then collected by the truck. Contaminated items such as used food or drink containers and broken glass cannot be processed into a new recycled product. It is important to know what can and cannot be placed into your commingled recycle container.

Recycling by Numbers!

- 1. Polyethylene Terephthalate (PET)**
Single use plastic water bottles, soda bottles, cooking oil containers, juice bottles and condiment bottles are accepted for curbside pick up and often turned into more PET containers, carpet, furniture, and fleece.
- 2. High-Density Polythylene (PE-HD)**
High strength plastic used for milk jugs, yogurt tubs, shampoo bottles, and detergents are accepted for curbside and recycled into pipes, pen, floor tiles, traffic cones or more shampoo and detergent bottles.
- 3. Polyvinyl Chloride (PVC)**
Products such as toys, vinyl siding, windows or water-resistant clothing have limited recycling abilities and **not collected curbside**.
- 4. Low-Density Polythylene (PE-LD)**
Thin plastic bags, cling food wraps and squeezable bottles like toothpaste tubes or six-pack rings are **not collected curbside for recycling**.
- 5. Polypropylene (PP)**
Straws, yogurt cups, furniture, toys and medicine bottles are **not accepted for curbside recycling**.
- 6. Polystyrene (PS)**
Styrofoam containers, meat trays, packing peanuts or packing inserts are **not recyclable**.
- 7. Miscellaneous**
Plastics not listed above such as BPA, polycarbonate, bio-based plastics such as PLA (polylactic acid, acrylic plastic and fiberglass are **not recyclable and cannot be collected for curbside recycling**.

Serviced Every Week

[CONTAINER SIZES]

Containers are available in the following sizes:

Garbage: 32, 64, 96 gallons (Rates vary based on service area)

Container dimensions

Size	Height	Width	Depth	Footprint
32 gal.	38.5"	19.0"	22.0"	2.0 sq. ft.
64 gal.	42.0"	25.5"	27.0"	2.5 sq. ft.
96 gal.	46.5"	26.5"	33.5"	3.0 sq. ft.

Place container out by 6 am. Leave at least 3 feet between containers and any other object.

[REMINDERS]

- Place only trash in your garbage container. (Recyclables go into your blue container)
- Be sure all materials fit inside the container with lid closed.
- For a missed pickup call (209)274-ACES within 24 hours to report container not serviced.
- Before discarding, consider reusing or donating.
- Go to www.aceswaste.com to try our Waste Wizard tool for information about reuse options.

[WHAT **NOT** TO PUT IN YOUR GARBAGE CART]

- ❌ Batteries*
- ❌ Fluorescent bulbs*
- ❌ Hazardous Waste*
- ❌ Medical sharps*
- ❌ Recyclables (See Recycling page)

*(See Toxics page)

CONSERVE

Do More – Beyond Curbside!

What is Commingled Recycling & How does it work?

ACES uses a single-stream recycling method to collect your recyclables called commingled recycling. We collect all plastic, metals, paper and other recyclables in one container and dump it into one truck load. Residents do not need to separate out different types of recyclables before collection. Instead, they are sorted when they arrive at a material recovery facility or MRF for short.

Pros & Cons

The major benefit of commingled recycling is the simplicity for consumers to participate in a curbside recycle program. However, it is easy to contaminate the entire load if dirty items are placed in recycle bins and then collected by the truck. Contaminated items such as used food or drink containers and broken glass cannot be processed into a new recycled product. It is important to know what can and cannot be placed into your commingled recycle container.

Recycling by Numbers!

- 1. Polyethylene Terephthalate (PET)**
Single use plastic water bottles, soda bottles, cooking oil containers, juice bottles and condiment bottles are accepted for curbside pick up and often turned into more PET containers, carpet, furniture, and fleece.
- 2. High-Density Polyethylene (PE-HD)**
High strength plastic used for milk jugs, yogurt tubs, shampoo bottles, and detergents are accepted for curbside and recycled into pipes, pen, floor tiles, traffic cones or more shampoo and detergent bottles.
- 3. Polyvinyl Chloride (PVC)**
Products such as toys, vinyl siding, windows or water-resistant clothing have limited recycling abilities and **not collected curbside**.
- 4. Low-Density Polyethylene (PE-LD)**
Thin plastic bags, cling food wraps and squeezable bottles like toothpaste tubes or six-pack rings are **not collected curbside for recycling**.
- 5. Polypropylene (PP)**
Straws, yogurt cups, furniture, toys and medicine bottles are **not accepted for curbside recycling**.
- 6. Polystyrene (PS)**
Styrofoam containers, meat trays, packing peanuts or packing inserts are **not recyclable**.
- 7. Miscellaneous**
Plastics not listed above such as BPA, polycarbonate, bio-based plastics such as PLA (polylactic acid, acrylic plastic and fiberglass are **not recyclable and cannot be collected for curbside recycling**.

EZ CLEAN UP

JUNK REMOVAL SERVICE

10% Discount
For ACES
Customers

Amador County's only full service clean up and hauling service. Residential and Commercial uses. Learn more at ezcleanupservices.com or call us at 209-274-2237

APPLIANCES

- Air conditioner
- Dishwasher
- Dryer
- Freezer
- Hot water heater
- Microwave ovens
- Refrigerator
- Stove
- Swamp cooler
- Washer

FURNITURE

- Cabinet
- Chair
- Couch/sofa
- Hide-a-bed
- Box spring (any size)
- Mattress (any size)
- Table

TIRES

- Tires (limit 9)

Items not accepted:

Paint, chemicals, solvents, oil drums (unless empty with top and bottom removed), oil and propane tanks, any hazardous materials. *See Toxics page.

ELECTRONICS

- TV sets (any size)
- Computer monitors
- Electronics
