Hello,

It would be good to send out a message to a wider group of folks in our neighborhood about the proposed Verizon cell tower at Hale Road and Shake Ridge. We did not receive any material on this proposal.

There is a big concern in our neighborhood about the negative impact of a tower on our western views and property values. Until we receive more information on this proposal we will take a negative position on its installation.

We hope you understand our position.

Robert & Diana Piety  
19570 Charleston Road, Volcano
