Re: 06/11/24 Agenda Item 2: UP-24;4-1 Verizon Wireless 90' Monopine Tower

I respectfully request a denial of the proposed Verizon Tower for the following reasons:

- 1 - The tower will be a focal point of my backyard view, lowering the value of my property. See attached photograph of my backyard view.
- 2 - Too many potential health risks affecting too many nearby residents. This is too close to a concentration of 1-acre or less home sites, La Mel Heights as well as La Mel Grand Estates.
- 3 - Potential hazard to emergency helispot at nearby fire station. Potential increased height adjustment at a later date as technology expands.
- 4 - My property value will decrease.

I believe there are better locations for Verizon to pursue.
I strongly oppose this project.
