STATEMENT REGARDING AMADOR COUNTY BUSINESS LICENSES

To Whom It May Concern:

The County of Amador, which governs the unincorporated areas of the County, does not require a business license. The County does not restrict or regulate sales in the unincorporated areas of the County by any County (non-state or non-federal) statute, ordinance, or regulation, other than its general zoning laws. The fact that no business license is required does not mean that a building permit, use permit, or other approval is not required by the County's general zoning laws. Sales occurring in the incorporated cities within the County may require city business licenses.

Please do not hesitate to contact the Amador County Board of Supervisors Office or County Administrative Officer at (209) 223-6470 if further information is required.

This statement is valid until further notice.
